Introduction

Little Miami Junior High School expects that all members of the school community will treat each other in a civil manner and with respect for differences. Little Miami Junior High School is committed to providing a learning and working environment for students, staff, and visitors that is free from bullying and cyberbullying. This commitment is an integral part of our comprehensive efforts to promote learning and to prevent and eliminate all forms of bullying and other harmful and disruptive behavior that can impede the learning process. We support this commitment in all aspects of our school community, including curricula, instructional programs, staff development, extracurricular activities, and parent/guardian involvement.

Consistent with state, and federal laws, and the policies of the Little Miami School Board, no person shall be discriminated against because of race, color, sex, religion, national origin, or sexual orientation. Little Miami Junior High School takes specific steps to create a safe, supportive environment for all populations in the school community, and to provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment, teasing, and any forms of retaliation.

Little Miami Junior High School will not tolerate any unlawful or disruptive behavior, including any form of bullying, cyberbullying or retaliation in our school building, on school grounds, or during any school related activities. All reports and complaints of bullying and retaliation will be promptly investigated, and the administration will take immediate action to end such behavior and restore a sense of safety for all.

Definitions

Aggressor: a person who engages in bullying, cyberbullying, or retaliation.

Bullying: Ohio law [Ohio Revised Code (ORC) 3313.666(B)(E)] defines bullying, harassment and intimidation in Ohio schools as any intentional written, verbal, graphic or physical act that a student or group of students exhibits toward another particular student more than once, and that behavior both:

- Causes mental or physical harm to the other student; and
- Is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening or abusive educational environment for the other student.

Confidentiality: expectation that anything done or revealed will be kept private.

Cyberbullying: bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings.

Hostile Environment: a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the condition of a student's education.

Retaliation: any form of intimidation, reprisal, or harassment directed against a person who 1) reports bullying, 2) provides information during an investigation of bullying, or 3) witnesses or has reliable information about bullying.

Target: a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

Expectations

It is a violation of this plan for any administrator, teacher or other employee, or any student to engage in or condone bullying in school or to fail to report or otherwise take reasonable corrective measures when made aware of an incident of bullying. This plan is not designed or intended to limit the schools authority to take disciplinary action or take remedial action when such bullying occurs out of school but has a connection to school, or is disruptive to an employee's or student's work or participation in school related activities. Reports of bullying occurring in or out of school will be reviewed and, when a connection to work or school exists, will result in a complete investigation and possible disciplinary action and corrective measures.

Bullying is here by prohibited 1) on school grounds, property immediately adjacent to school grounds, at school sponsored or related activities/functions both on and off school grounds, at school bus stops, on busses or other vehicles owned, leased, or used by Little Miami Local School District; 2) through the use of technology or an electronic device owned, leased, or used by Little Miami Local Schools; 3) at a location, activity, function or program that is not school related, or through the use of technology or electronic devices that are not owned, leased or used by Little Miami Local Schools if the bullying creates a hostile environment at school for the victim, infringes on the rights of the victim at school, or materially and substantially disrupts the educational process or the orderly operation of a school.

Retaliation in any form against any person is forbidden. If retaliation occurs, it could be considered grounds for dismissal of staff or personnel, and removal from the educational setting for a student.

Reporting

It is the responsibility of every employee, student, and parent to recognize acts of bullying and retaliation, and to take every action necessary to ensure that the applicable policies and procedures of Little Miami Schools are implemented. Any employee or student who believes that he/she has been subjected to bullying or retaliation has the right to file a complaint and to receive prompt and appropriate handling of the complaint. Further, all reasonable efforts shall be made to maintain the confidentiality and protect the privacy of all parties, but proper enforcement of this policy may require disclosure of any or all information received.

The safety of suspected targets is our first consideration once a complaint is received. A safety assessment is made immediately and provisional accommodations are implemented by appropriate staff members as deemed necessary; the designated official for reporting also immediately notifies the transportation department if suspected targets and perpetrators ride the same bus.

Due to confidentiality issues, professional judgment is used in information disclosure. Consequences about a student will not be discussed with other parents or guardians. If there is an injury or emergency on school property, the School Resource Officer (SRO) is immediately notified. The SRO is also notified if criminal charges have been filed.

Reporters

Designated officials for reporting bullying and retaliation are as follows:

- 1) School Administration
- 2) School Resource Officer
 - a. The School Resource Officer is the law enforcement liaison.

All oral reports, in person or via telephone, are recorded on the Incident Report Form or in Public School works. Each designated official for reporting maintains a file of these reports.

Investigation

The administration is responsible for conducting a prompt investigation upon receiving a report of bullying or retaliation. The nature and duration of an investigation will depend on the circumstances, including the type, severity and frequency of the alleged conduct. The goal is to obtain an accurate and complete account of all incidents and circumstances deemed relevant to the allegations in the complaint. The investigation will generally include personal interviews with the complainant, the subject(s) of the complaint and others who witnessed or may have potentially relevant knowledge about the alleged incident giving rise to the complaint. Confidentiality guidelines will be followed. Review of documents, videos, voicemails, emails, websites, text messages, instant messages, and other items deemed relevant may also be included.

Throughout the investigatory and complaint resolution process, the administration will make reasonable efforts to regularly inform the complainant and the subject of the complaint and their parents/guardians of the status of the investigation and estimated timing for making a determination. While the administration will attempt to complete the investigation in three school days. Claims involving physical violence or serious threats of harm will be expedited.

The administration, in consultation with the Resource Officer, when necessary, will take all steps deemed necessary to protect to the extent practicable the complainant, witnesses, and other individuals from further incident or retaliation pending the outcome of the investigation. These steps may include, but are not limited to, ordering interim disciplinary action, appropriate adult supervision, reassigning classroom seating, temporarily transferring the student subject of the complaint from classes with the complainant or to an alternative school assignment, instructing the alleged perpetrator to avoid contact and maintain appropriate safe distance from the alleged target while on school property and at school events and monitoring compliance with any court ordered protective orders. All interviewees, alleged targets, and all alleged perpetrators will be warned against retaliation and made aware of the prohibition to speak about the matter in order to maintain the integrity of the investigation. All interim safety measures will be monitored for success.

Confidentiality

Information from a student record of a target or aggressor may not be disclosed to a parent unless the information is about the parent's own child. There will be disclosure of bullying or retaliation to a local law enforcement agency as necessary. Such communication must protect privacy of targets, student witnesses, and aggressors to the extent practicable under the circumstances. Student record information about a target or aggressor may be disclosed in connection with a health or safety emergency if such information is necessary to protect the health and/or safety of the student or other individuals. This is limited, however, to instances where there is an immediate and significant threat; all such disclosures must be documented with reasons why the health and/or safety emergency existed. All employee records are confidential.

Documentation and Records

Each school has its own Bullying Prevention and Intervention Incident Reporting Forms with distinct forms for student reporters and adult reporters. Every administrator keeps written records of all or all interviews and written responses during the investigation. All investigatory reports, written items, documents, videos, and other types of evidence are kept in each administrator's files.

Responses to Bullying

1. *Teaching Appropriate Behavior Through Skills Building*

Once administration determines that bullying or retaliation has occurred, he/she will use a range of responses that balance the need for accountability with the need to teach appropriate behavior as required. These may include:

- Offering individualized skills building sessions based on our anti-bullying curricula
- Providing relevant educational activities for individual students or groups of students, in consultation with guidance counselors and other appropriate school personnel
- Implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals
- Meeting with parents/guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home
- Adopting behavioral plans to include a focus on developing specific social skills
- Making a referral for evaluation

2. Taking disciplinary action

If the administration investigates and finds that disciplinary action is appropriate, the action will be determined on the basis of facts found by the administration including the nature of the conduct, the age of the students involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with the plan and the school code of conduct.

If the administration determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action.

Parents of students alleged to have engaged in bullying or retaliation will be invited to attend a meeting at which the activity, words, and/or images subject to the complaint will be reviewed. A student disciplined for bullying or retaliation will not be readmitted to the regular school program until his/her parents/guardians have been contacted.

3. Promoting Safety for the Target and Others

The administration will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others. One strategy that may be used is to increase adult supervision at transition times and in locations where bullying is known to have occurred or is likely to occur. Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the administration will contact the target to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the administration will work with appropriate school staff to implement them immediately.

Training and Professional Development

Annual Staff Training: Annual training for all school staff will include staff duties as outlined in the bullying intervention plan, an overview of the steps that the administration will follow upon receipt of a report of bullying or retaliation, and an overview of the bullying prevention curricula to be offered at all grades.

Ongoing Professional Development:

- Developmentally, age appropriate strategies to prevent bullying
- Developmentally, age appropriate strategies for immediate, effective interventions to stop bullying incidents
- Information regarding the complex interaction and power differential that can take place between and among an aggressor, target, and witnesses to the bullying
- Research finding on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment
- Information on the incidence and nature of cyberbullying.
- Internet safety issues as they relate to cyberbullying.

Other areas identified by Little Miami Junior High School for professional development include:

- Promoting and modeling the use of respectful language
- Fostering an understanding of and respect for diversity and difference
- Building relationships and communicating with families
- Constructively managing classroom behaviors
- Using positive behavioral intervention strategies
- Applying constructive disciplinary practices
- Teaching students skills including positive communication, anger management, and empathy for others
- Engaging students in school or classroom planning and decision making
- Maintaining a safe and caring classroom for all students.

Specific Bullying Prevention Approaches

Bullying prevention curricula will be informed by current research which emphasizes the following approaches:

- Using scripts and role plays to develop skills
- Empowering students to take action by knowing what to do when they witness other students engaged in acts of bullying or retaliation, including seeking adult assistance
- Helping students understand the dynamics of bullying and cyberbullying, including the underlying power imbalance
- Emphasizing cyber safety, including safe and appropriate use of electronic communication technologies
- Enhancing students skills for engaging in healthy relationships and respectful communications
- Engaging students in a safe, supportive school environment that is respectful of diversity and differences.

General Teaching Approaches that support bullying Prevention Efforts

The following approaches are integral to establishing a safe and supportive school environment and will be emphasized at Little Miami Junior High School. These underscore the importance of our bullying intervention and prevention initiatives:

- Setting clear expectations for students and establishing school and classroom routines
- Creating safe school and classroom environments for all students
- Using appropriate and positive responses and reinforcement, even when students require discipline
- Using positive behavioral supports
- Encouraging adults to develop positive relationships with students
- Modeling, teaching, and rewarding pro-social, healthy, and respectful behaviors
- Using positive approaches to behavioral health, including collaborative problem solving, conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development
- Using the Internet safely and meeting all CIPA requirements
- Supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength.
