with snack profits going to
Australia Zoo Wildlife Warriors charity

LMIS Family Night

Friday March 6th from 7-9 pm for LMIS Families

We will be having an Escape Room where your family can see if they can beat the Mad Scientist and Escape the School or will your family have to drink the Mad Scientist Zombie Formula and be turned into zombies????

Plus some of our amazing LMIS teachers will be transforming our gym into a Family Science Night where your kids can create Slime, Lava Lamp, DNA Necklaces, Invisible Ink, and so much more!

Please note - This is NOT a drop off event. Parents are meant to stay with their families and participate/supervise with their families!

The Escape Room part of the evening will take 30-45 minutes and the Science Night will be going on during the whole time from 7-9 pm in the gym. Please preregister at bit.ly/LMISFamily for a time slot where you will be starting the Escape Room portion of the evening. This allows us to set up the classrooms in advance for the evening. You will be signing up with other families for the same time slot but you will just be doing the Escape Room with only your family. Again, your timeslot that you sign up for is your starting time for only the Escape Room portion of the evening. Feel free to come and enjoy the Family Science Night portion of the evening anytime from 7-9 pm.

Our LMIS Student Council will be selling snacks to raise money for Australia Zoo Wildlife Warriors – The Irwin Family Foundation.
