

> the **platform** behind every **payment.**

PaySchools Central makes school payments quick and simple.

By putting the power back in the hands of parents, PaySchools Central makes registration and payments easy. Parents never have to worry about their children running out of lunch money thanks to greater control over how and when to pay.

KEY CAPABILITIES:

Simplified Payments Online

Dashboard-style website clearly lays out all information so parents can see students' balances immediately

Effortlessly create reports for all the transactions and activities by a single student or the entire family

Easy Account Setup & Auto Replenishment

No credit card required means parents are up and running in minutes

Parents never have to worry about their children running out of money for lunch or other activities

Intuitive Checkout

Enables payments across multiple districts and multiple students with a single transaction

Search and Filtering

Gives parents easy access to find what they're looking for

ADVANTAGES FOR YOUR DISTRICT:

Increased Revenue

Parents can pay quickly and easily. Payments are delivered to QuickLunch, our school lunch point-of-sale system, within minutes so parents can pay while their child waits on the lunch line.

Displays bonus balances and rules so you can reward online lunch payments with bonus funds to incentivize parents

ADVANTAGES FOR YOUR DISTRICT CONTINUED...

Increased Efficiency

Fewer phone calls to your office staff because the system gives parents greater control for payment options, meal restrictions, site navigation, and password recovery. A Help Portal assists users with issues.

Fees are grouped by category to give you greater control. Fee categories are set up and managed in PaySchools Admin, outside of the Student Information System, which gives you greater flexibility and additional oversight.

Auto replenishment eliminates the need to send reminder notices to parents and creates faster lunch lines because children aren't paying with cash or checks

Notification of events and personal messaging inbox creates better communication with parents thanks to notifications about upcoming fees, low lunch balances, monthly statements, and system issues

Increased Control & Flexibility

Future payments scheduling helps parents to schedule payments and not worry about them later

Meal restrictions for QuikLunch enables parents to set limits on what their children can eat and how much they can spend so your staff doesn't have to worry about it

Optional fee payments are displayed based on building, grade, gender, available spots, and more, and installment payments can be allowed for these items

Online user reporting makes it easy for parents to get the information they need, including transaction history, account balance, and account history
