

**Mobile Mammography Van Visits
Mercy Health Little Miami School Health Center
Located at the Primary School 7247 Zoar Rd
on August 11.**

Mercy Health – Cincinnati’s Mobile Mammography program offers safe and easy screenings from its mobile unit at locations convenient to your home or workplace. There’s no need to sit in a waiting room when you visit the mobile unit, where a skilled, masked technician following CDC guidelines will complete your screening in about 15 minutes.

For eight years, Mercy Health’s newest mobile unit has offered 3D imaging known as breast tomosynthesis that can help increase the chance of detecting breast cancer early. Mercy Health’s mobile mammography program was first in the region to offer this technology, adding to the strength of the popular program.

For best coverage, please verify that Mercy Health - Cincinnati and The Jewish Hospital are in-network providers with your insurance carrier. If you are uninsured or underinsured (have high deductibles), we have financial need-based assistance programs available to help you. Call 513-686-3300 for more information.

You can make your appointment by calling 513- 215-9277
